Cummins N14 Stc Celect Celect

The N14 Celect was the first Cummins engine to feature an electronic injection system. The Celect fuel system produces systematic pressure throughout each injection cycle unlike the common rail fuel system of the 855, or older M11 or L10 models. Albeit the injectors are still cam actuated the ECM controls the metered flow of fuel to the injectors.

Tech Tips - NT/N14 OBC Overhead Set Procedure

I've had my '01 N14 Celect Plus tuned to 565/1850 from stock 435/1650 and that made one hell of a difference. Getting the same , maybe little better fuel mileage than before. I asked my tuner about the fretting, and he said it wouldn't be an issue at this hp. My engine is all stock at 1.7mm, and only rolled in rod & main bearings back at 1.4mm.
