A walk-in birthing happens when there is a contractual agreement between two souls to swap places. One soul exits from the human body and re-enters the spiritual realm.

Walking is a spiritual practice that yields so many dividends: replenishment of the soul, connection with the natural world, problem-solving, self-esteem, health and healing, and heightened attention. Movement seems to encourage dialogue and conviviality, leading to richer conversations with soul mates, friends, and even strangers.
